

Here's another trick from the Doctor to test your skills... Can you meet this challenge?

We've seen this with the letters out of order, but this is the first time we've seen it with numbers.

Good example of a Brain Study: If you can read this OUT LOUD you have a strong mind. And better than that: Alzheimer's is a long long, way down the road before it ever gets anywhere near you!

To my 'selected' strange-minded friends: If you can read the following paragraph, forward it on to your friends with 'yes' in the subject line. Only great minds can read this. This is weird, but interesting!

If you can raed this, you have a sgtrane mnid, too.

Can you raed this? Olny 55 people out of 100 can.

I cdnuolt blveiee that I cluod aulacly uesdnatnrd what I was rdanieg. The phaonmneal pweor of the hmuan mnid, aoccdrnig to a rscheearch at Cmabrigde Uinervtisy, it dseno't mtaetr in what oerdr the ltteres in a word are, the olny iproamtnt tihng is that the frsit and last ltteer be in the rghit pclae. The rset can be a taotl mses and you can still raed it whotuit a pboerlm. This is bcuseae the huamn mnid deos not raed ervey lteter by istlef, but the word as a wlohe. Azanmig huh? Yaeh and I awlyas tghuhot slpeling was ipmorantt! If you can raed this forwrad it.

FORWARD ONLY IF YOU CAN READ IT..
