

# Willis's Walkabouts

## Wet Season for Beginners

The wet season in the Top End and Kimberley is **spectacular** and, more importantly, **enjoyable**.

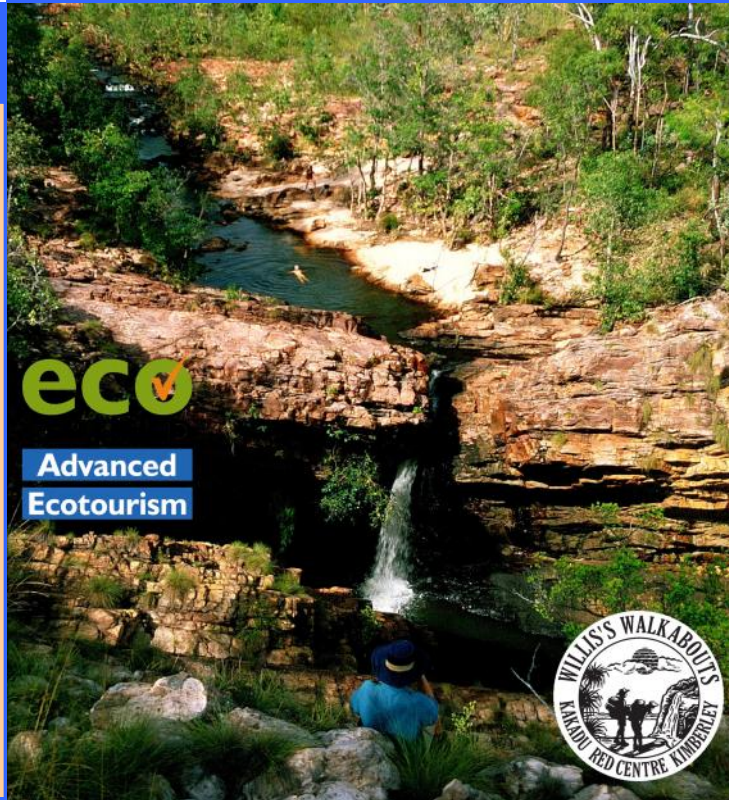

For bushwalkers who might be a bit nervous about committing themselves to a major wet season expedition, we've designed two introductory trips which allow participants plenty of time to acclimatise as we work our way from day walks up to longer overnights.

**Green Kimberley: 13 January - 1 February 2014**

**Kakadu Light: 4-16 February 2014**

Both are divided into sections, any of which can be done on its own. The Kakadu trip is already a definite departure.

For more information, send us an email or click the links on the availability page on our website:
